Installation/Repair

PSCtv is a digital "cable" television service that is delivered into your home or business over a fiber optic line. At time of original installation, a PSC technician (or hired contractor) installs up to three (3) Set Top Boxes (STBs) free of charge. (One Digital Video Recorder (DVR) = 1 STB)

Additional STBs are \$49 if installed at time of initial installation.

Additional DVRs are \$99 if installed at time of initial installation.

Monthly recurring charges of \$5.95 per STB are incurred – after the 1st FREE STB.

Monthly recurring charge of \$8.95 per DVR is incurred. A \$5.95/mo STB charge applies in addition to the DVR monthly charge.

At the time of installation, customer takes ownership of all wiring, jacks, ethernet switch and STBs installed by PSC to provide video service. Customer is responsible for all charges related to repairs of wiring, jacks, ethernet switch and STBs unless customer is subscribed to PSC's Voice, Video & Data Protection Plan (see below). PSC recommends that customers use surge protection devices on all their PSCtv video equipment. Substantial charges apply for early contract termination.

Other PSC Installation or Repair charges include a \$40 Trip Charge, an Hourly Labor Rate of \$90 and the cost of the equipment installed or replaced.

Examples:	Ethernet Switch	\$75.00	Set Top Box	\$159.00	DVR Set Top Box	\$299.00
	Data Module	\$34.95	Remote Control	\$ 20.00		
	Other Materials	Depends on type & quantity				

NOTE: PSC technicians will not "bridge" additional televisions to a STB.

Equipment Compatibility

All of PSCtv's television services require Set Top Boxes from PSC to allow viewing. Use of other STBs may result in prosecution for theft of cable service. It is unlawful to alter or tamper with any device belonging to PSCtv in order to receive, intercept or assist in receiving or intercepting, any communications service offered by PSCtv and may result in fines and/or imprisonment.

Because STBs function as the channel tuner on your TV or VCR, it may prevent you from using some of the special features of your TV or VCR. For example, you are not able to view one program while recording another, record two or more consecutive programs appearing on different channels, display "picture in picture", or other features using channel selection by the TV or VCR.

Remote Control Units

PSC supports only remote control units provided and certified for use with PSCtv Set Top Boxes.

Service Changes

Subject to certain laws, PSC has the right at any time to change services (e.g. rearrange, add/delete), equipment offered, prices and fees. If the change affects you, we will provide notice of the change and the effective date. The notice may be included on your monthly bill, bill insert, newspaper or newsletter or by any other permitted communication. If you find the change unacceptable, you have the right to cancel your service. (Early termination fees may apply if service is under contract.) If you continue to receive service after the effective date of the change, we will consider this the acceptance of the change.

All pricing in this notification is subject to change at the discretion of PSC.
